

## Technical Skills

**Strong:** JavaScript, jQuery, HTML5, CSS3, AngularJS, Angular Material, Firebase, AngularFire, Bootstrap, Materialize CSS, Photoshop, InDesign, Git, AJAX, JSON, geoJSON

**Experienced:** Wordpress, Illustrator, OpenCart, Leaflet JS, PHP, d3.js, Node.js

## Websites and Applications Developed

**Real Value** | *A data-visualization map that dynamically displays area ratings based on user-selected factors.* ( [live](#) | [github](#) )

- AngularJS (v1.x) and Angular Material for the front-end and PHP and Firebase for storing and manipulating data.
- Angular Leaflet JS with geoJSON data as a robust and flexible map solution with D3.js for data visualization.
- Exercised Scrum process and Agile development workflow with two other developers.

**To-do For You** | *An application that allows users to log in and add and track personalized to-do items.* ( [live](#) | [github](#) )

- AngularJS (v1.5), and Angular Material UI component-based frameworks to create a seamless to-do application.
- User authentication (email/password or Google log in) and CRUD operations through Firebase via AngularFire.

**Meetup Map** | *An application that returns open meetup events according to interest and location.* ( [live](#) | [github](#) )

- Used JavaScript, jQuery, and Materialize CSS to achieve great material design and user intuitive experience.
- AJAX requests with the following JSON APIs: Meetup, Google Maps & Geocoding, and YouTube. Used Postman.

**Student Grade Table** | *A robust grade-tracking bootstrap application.* ( [live](#) | [github](#) )

- Bootstrap fully responsive layout. Originally core JavaScript and jQuery. Refactored in AngularJS and Firebase.

**Love Formula Game Website** | *Commissioned responsive website for card game business venture.* ( [live link](#) )

**& Newport Coast Real Estate Website** | *Commissioned responsive website for Ann Ackerman, Realtor.* ( [live link](#) )

- Custom Wordpress child theme websites using HTML5 and CSS3, various Wordpress plugins, and some PHP.

## Work Experience

**Senior Graphic/Web Designer** - MixedTees.com

Orange, CA 2011-2016

- Designed website mockups, edited HTML/CSS code, and interfaced with clients to actualize their vision.
- Led all design projects, including web design, social media marketing, print media, and apparel.
- Designed and distributed custom newsletters through an OpenCart module to 1500+ recipients, weekly.
- Helped to increase annual company revenue over time by an estimated 250K, by streamlining various internal procedures and implementing Slack and Shipstation.
- Laid out 27 quarterly magazines for 7-Eleven FOAs in LA and Denver.

## Education

**Accelerated Web Development Program** - LearningFuze

Irvine, CA 2016

**Web Design coursework** - Orange Coast College

Costa Mesa, CA 2014

**B.A., Art History** - California State University, Long Beach

Long Beach, CA 2011

*Awarded President's list and Dean's list.*

## About Me

When not coding I'm most likely hiking, playing soccer, or catching up on Game of Thrones. I speak a little German, I like to read about science and tech, and I make a mean breakfast burrito.
